

FROSTWOOD

AREA HISTORY

Surrounded by towering pines and lush greenery, Frostwood is nestled in the Memorial area east and west of Gessner. Developed in the 1950s, many of the homes define the neighborhood with architecture ranging from ranch style to Mid-Century modern. With its beautifully wooded areas, convenience to downtown and upscale Memorial area shopping, Frostwood has become a retreat within metropolitan Houston. Secluded cul-de-sacs and tree filled lots makes Frostwood one of the most sought after neighborhoods in the Memorial Villages. Its strong civic club, nationally recognized schools and police protection have made Frostwood a destination for families in search of the perfect neighborhood.
